**RESTRICTION and EXAMINER'S AMENDMENT**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-10, drawn to a reaction chamber, classified in class 261, subclass 79.2.
- II. Claims 11-17, drawn to a protein removal system and method, classified in class 210, subclass 703.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not

require the particulars of the subcombination as claimed because the subcombination recites "a plurality of ...tubes" and the combination does not contain this limitation verbatim. The subcombination has separate utility such as gas-liquid mixer in a forming a fire fighters foam.

3. During a telephone conversation with Ms. Catherine Walsh on Sept. 30, 2004 a provisional election was made without traverse to prosecute the invention of group II, claims 11-17. Affirmation of this election must be made by applicant in replying to this Office action. Claims 1-10 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention. These claims (1-10) are subsequently canceled below.

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Catherine Walsh on Sept. 30, 2004.

The application has been amended as follows:

In the Specification:

At paragraph [0030], line 1, change "Figure 12 is" to –  
Figures 12A and 12B each show--;

In the Claims:

Claims 1-10 are canceled.

5. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The label "FIG. 12" needs to be removed from the Fig. 12A and Fig. 12B sheet . In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
6. The following is an examiner's statement of reasons for allowance: Both Huckstedt (US 3772192)- Fig. 1 and Danner (US 5078867)- Fig. 11 disclose a liquid-gas contactor prior to a protein skimmer device for purifying aquatic water. The above contactors fail to teach or suggest at least the structure from claim 11 (D) (2) and (3) and analogous structure and method in claim 17.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays,

should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas M. Lithgow whose telephone number is 571-272-1162. The examiner can normally be reached on Mon. -Fri..
